19 May 2002

Dear Boris Feiner,

The Keyboard Trust exists to present highly gifted young pianists to a wider public by way of showcase recitals in London and other international centres. Following your successes at the Senigallia Piano Competition and your many other awards, we would therefore like to invite you to play at Steinway Hall in London on Tuesday, 2 July 2002. We have already corresponded separately about the programme and the conditions we are offering.

We always try to organise at least one other performance so as to make a visit to London worthwhile for those coming from abroad. We would therefore like you to arrive in London not later than 25 June and give us a margin of at least two days after the Steinway Hall concert.

We greatly hope that, despite the present emergency in Israel, you may be able to obtain leave to fulfil this engagement in London, which should be a benefit to the advancement of your professional career.

Yours sincerely,

John Leech
